Markal®

MARKAL® is the global leader in high-performance, hand-held industrial marking products. From our North American and European manufacturing locations, we support the hardworking contractors that build the world's great bridges, ships, automobiles, homes, office towers, power plants, and many other engineering marvels with **MARKAL®** products.

Today, **Markal®**-branded products are sold around the globe. This broad network of long-term business partners provides our customers the highest level of service.

Tempil®

Tempil® is an industrial leader in advanced and accurate temperature indication technologies. From protecting NASA's Space Shuttle Orbiter to measuring critical temperatures of life saving drugs and devices, engineers and professional rely on the accuracy of **Tempil®** for the most vital applications. Setting the global standard of innovative, customer-driven solutions, **Tempil®** branded products deliver the surface measurement solutions, when and where customers need the most.

LA-CO®

Our **LA-CO®** brand of high-quality, high-performance plumbing and HVAC chemicals is a globally trusted partner for professional contractors. From homes to skyscrapers to the United States' National Archives Building in Washington D.C., **LA-CO®** branded thread sealants, fluxes, heat protection products, and repair sealants protect history's most important documents and maintain the world's most precious natural resources.

We are proud to serve multiple industries with our quality chemical compounds.

ALL-WEATHER®

The **All-Weather®** brand of livestock marking and identification products is the world's most trusted brand for herd management on dairy and swine farms. Our **All-Weather®** livestock marking products have helped support global increases in herd sizes and have provided low-cost, efficient solutions for animal heat detection, vaccination, insemination, and other high-volume herd management needs.

For almost 85 years, Markal has been proudly manufacturing and supplying the industry's largest line of industrial grade markers. Products listed with these symbols are made either in the USA or in Europe with the highest attention to quality and dependability.

Products designated with this symbol are part of our Green Solutions for Sustainability product selection. These products meet many or all specifications for reducing health and safety concerns, produced using sustainable and/or recycled materials, are low in VOC levels, and are RoHS compliant

A Volatile Organic Compound (VOC) is a type of potentially harmful gas emitted by certain solids or liquids, hurting indoor air quality. Products with this symbol emit less amounts of harmful VOC's than other industrial paint markers.

The International Material Data System (IMDS) is the automobile industry's material data system. All materials used for manufacturing automobiles are collected, maintained, analyzed and archived into IMDS. A global standard used by almost all of the global OEMs, IMDS is used to meet the obligations placed on auto manufacturers by national and international standards, including their laws and regulations.

Ideal for stainless steel and alloy metals, our Low Corrosion markers have low levels of chlorides, halogens, and sulfur to protect against unwanted degradation, pitting, or general weakening of materials. For more information see our Low Corrosion Marker Guide.

ABOUT LA-CO INDUSTRIES, INC. 77

NEW CONCEPT — MARKAL RETAIL PACKS

Markal has always taken pride in being an innovative company, responsive to the market's demands and always keeping an eye on the way our industry evolves. That's why we always work at expanding the diversity of our product range and try to develop smarter solutions for you. Recently we have noted an increasing interest for smaller quantity packaging. We have therefore developed a new concept for the Markal Industrial Marking products: a whole line of "Retail Packs", featuring our most attractive markers in 1 to 5 units.

- The Retail Packs provide valuable information on the front and back, such as application pictures, available colors, areas of application...
- Thanks to the Retail Packs, you can easily stock on new items and see their effect on the market
- The Retail Packs are an effective ready-to-sell solution for online businesses where you usually need smaller quantity packaging. With the new Retail Packs, no need to break a box and repack: you save time as your product is all ready for shipment.
- Your customers are more keen to give Markal products a try since they are not compelled to buy a whole box.
- The Retail Packs are easy and quick to put on your store shelves thanks to European holes.
- The Retail Packs are available for 16 of our best-selling products: showcasing the whole range to your customers can transform their attention into keen interest and boost cross-selling thanks to their eye-catching design.
- The environment friendly cardboard packaging makes it possible for the customer to see and feel the product, and yet a clear and discreet plastic strip makes the products virtually theft-proof.

96956	○ White*	96958	● Red*
96957	● Yellow*	96959	● Black*

- Unique paint formula resists spreading and dries quickly through oily surfaces to leave precise, permanent marks
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.
- Durable metal barrel and nib reduce breakage for longer marking life
- Easy-to-grip clip-cap allows for convenient pocket storage

PRO-LINE® WP — Liquid paint marker for wet surface marking

The PRO-LINE® WP is a liquid paint marker engineered for enhanced marking performance and adhesion on wet surfaces. The fast-drying formula resists spreading and running when in contact with water or water-based fluids to leave a bright, permanent mark.

DETAILS

96930	○ White*	96934	● Blue*
96931	● Yellow*	96935	● Green*
96932	● Red*	96936	● Orange*
96933	● Black*	96937	○ Silver*

- Specially formulated paint resists running or spreading on wet or damp surfaces to leave permanent, highly-visible marks
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.
- Low in V.O.C.'s and will not contribute to ground-level ozone
- Metal barrel and fiber tip provide durability for longer marking life

* Indicates that this marker color is low in chlorides, halogens, and sulfurs for low corrosion marking requirements.

PRO-LINE® XT — Liquid paint marker for rough surfaces and extreme durability

PRO-LINE XT® is a liquid paint marker engineered for the ultimate marking performance on rough, rusty, and dirty surfaces that utilizes an enamel resin to provide enhanced wear-, weather-, and chemical-resistance. The fast-drying paint formula binds quickly to materials to leave a bold, highly-visible mark and is free of xylene and other harmful chemicals to reduce user health risks.

DETAILS

97250	White* ^o	97258	Light green* ^o

- Engineered for continuous and highly-visible marking on rough, rusty, and dirty surfaces
- Enamel paint for extreme durability and enhanced wear-, weather-, and chemical-resistance
- Available in 14 bold, fast-drying colors for immediate handling and reduced downtime
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPS HAPS, and SARA 313 concerns in the U.S.A.
- Durable metal barrel and clip-cap reduce breakage and store easily in pocket

PRO-LINE® HT — Liquid paint marker for high temperature resistance

The PRO-LINE® HT is a unique liquid paint marker engineered with industry-leading PrismaLock™ technology, which locks in colors for bright, bold marks that can withstand temperatures of up to 982°C (1,800°F). By using speciality pigments and resins, this fast-drying paint offers unparalleled durability and mark readability, with some colors retaining easily legible marks up to 1,204°C (2,200°F).

DETAILS

97301	White ^o	97303	Black ^o
97302	Yellow ^o	97305	Blue ^o

- Fast-drying, liquid paint marker for high temperature resistance
- Engineered with PrismaLock™ technology for long-lasting colors up to 982°C (1,800°F)
- Marking range: -46°C to 66°C (-50°F to 150°F)
- Maximum mark readability (no color)
 - White - 1,148°C (2,100°F)
 - Yellow - 1,148°C (2,100°F)
 - Black - 1,204°C (2,200 °F)
 - Blue - 1,093°C (2,000°F)
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPS HAPS, and SARA 313 concerns in the U.S.A.

* Indicates that this marker color is low in chlorides, halogens, and sulfurs for low corrosion marking requirements.

CERTIFIED VALVE ACTION® — Nuclear pre-certified liquid paint marker

The Certified Valve Action® is a highly-visible liquid paint marker pre-certified to contain low levels of chlorides, halogens, low melting point metals and sulfur. Each manufactured batch is individually analyzed and certified to meet U.S.A. and International nuclear and military specifications, and is safe for use on stainless steel and other alloy metals where corrosion resistance is a requirement.

DETAILS

96880	○ White*
96881	● Yellow*
96882	● Red*
96883	● Black*

- Ideal for use on stainless steel or superalloys in industries that require prevention against corrosion, pitting, or degradation
- Certified to meet the following U.S.A. and international specifications:
 - EDF PMUC
 - U.S. DOE RDT F-7-3T
 - MIL - STD-2041D (expired)
 - U.S. Navy C3070
- Engineered to meet :
 - < 200 ppm total halogens
 - < 250 ppm each low melting point metals
 - < 300 ppm total low melting point metals
 - < 200 ppm sulfur
- Individual lot analysis and certification available at www.markal.com/certified for quick, accurate reference
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.
- Fast drying formula leaves wear-, weather- and UV-resistant marks

SL.250 & SL.250 PMUC — Liquid paint marker for stainless steel marking

SL.250 is a xylene-free, low-odor, and fast-drying liquid paint marker that meets the European nuclear requirements. The low sulfur and low chloride content allows for safe marking on stainless steel. SL.250 PMUC is a unique liquid paint marker certified for nuclear plants in France. Each marker is traceable to a manufactured batch number on the PMUC certificate that is required and controlled by EDF. Its low sulfur and low chloride content is safe for use on stainless steel, alloy, and other super alloy metals where corrosion resistance is a requirement.

DETAILS

- Safe for use on stainless steel and other alloy metals where corrosion resistance is a requirement
- SL.250 : Paint formula confirmed using a typical analysis to contain: < 200 ppm total halogens 200 ppm sulfur
- SL.250 PMUC : Each marker is delivered with a batch number and an official certificate with the product shipment
- Official PMUC certification:
 - < 200 ppm total halogens (chlorides, fluoride, bromide, iodine)
 - < 200 ppm sulfur
- Fast-drying, permanent paint for immediate handling reduces work downtime
- Medium bullet tip resists wear to provide long marking life
- Mark temperature resistance: 100°C (212°F)

* Indicates that this marker color is low in chlorides, halogens, and sulfurs for low corrosion marking requirements.

LOW CORROSION FINE POINT PAINT MARKER — Low corrosion fine point paint marker

Nissen Low Corrosion Fine Point Paint Marker is engineered to contain low levels of chlorides, halogens, and sulfur with industrial-grade durability marks. The low corrosion paint formula is safe for use on stainless steel, alloys, and other superalloy metals and will not contribute to unwanted corrosion, degradation, or pitting from use.

DETAILS

28780 ● Black*

- Fast-drying paint formula is safe for use on stainless steel and eliminates concerns regarding corrosion, degradation, or pitting
- Durable plastic precision nib for fine line marking
- Typical properties:
 - < 200 ppm chlorides and total halogens
 - < 250 ppm each low melting point metals
 - < 250 ppm sulfur
- Xylene-free paint reduces user health risks
- Durable metal barrel reduces breakage

GALVANIZER'S REMOVABLE MARKER — Removable Paint Marker for Galvanizing

Markal Galvanizer's Removable Paint Marker is designed for fabricators for making durable marks on steel during fabrication. The marks are then designed to be removed completely for galvanizers during the pickling process prior to galvanizing. This eliminates the need for any extensive, expensive, time consuming touch-up work.

DETAILS

28785 ○ White*
28786 ● Yellow*

- Durable paint marks during fabrication. Marks are removed completely during the pickling process.
- More marks per marker - more than 2x longer write-out vs leading competitor
- Fast drying and xylene Free
- Weather resistant paint formula
- Durable acrylic nib marks on smooth, rough and rusty metal surfaces
- Medium bullet tip nib makes precise marks

* Indicates that this marker color is low in chlorides, halogens, and sulfurs for low corrosion marking requirements.

VALVE ACTION® PAINT MARKER ULTRA VIOLET®

Liquid paint marker visible in UV light

The UV-visible Valve Action® makes an invisible paint mark that glows bright blue when viewed with a UV or black light, making it ideal for security, quality control, tamper-proofing, and anti-counterfeiting processes. The permanent invisible liquid paint dries quickly to provide long-lasting, weather- and wear-resistant marks.

- Makes clear, invisible marks that illuminate bright blue when viewed with an ultraviolet or black light
- Invisible paint formula is ideal for security, theft-prevention, and quality control
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.
- Fast drying formula reduces smearing
- Dura-Nib medium bullet tip resists wear to provide long marking life
- Durable metal barrel and clip cap reduce breakage and stores easily in pocket

SL.400 — Water-based liquid paint marker for general marking

SL.400 is a water-based, low-odor liquid paint marker that marks on almost all types of clean surfaces. The 6 opaque, bright colors are weather- and UV-resistant for excellent mark identification.

- Special water-based paint formula contains no solvents or VOC emissions reducing user safety and environmental concerns
- 6 vibrant colors for excellent mark identification, quality control, and parts inspection on clean surfaces
- Valve-actuated tip releases paint on-demand for smooth, continuous use
- Medium bullet tip resists wear to provide long marking life
- Mark temperature resistance: up to 80°C (176°F).

PRO-LINE® FINE & PRO-LINE® MICRO — Liquid paint markers for fine line marking

The PRO-LINE® Fine and Micro liquid paint markers combine the durability of paint with the marking precision of fine, valve-actuated tips. Whether marking on small surface areas or where easily-readable marks are required, the small tip sizes provide highly-visible, sharp lines for greater mark identification.

- Available in fine and micro tip sizes for precise, permanent paint marking
- Offered in 2 sizes: fine 1.5 mm (1/16") and micro 0.8 mm (1/32")
- High-strength, lightweight barrel designed for industrial-grade use
- Self-storing cap with clip protects tip for longer life and stores easily in pocket
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.

PRO-MAX® — Extra-large liquid paint marker

PRO-MAX® is a liquid paint marker with an extra-large tip to provide the biggest and most highly-visible marks. The wear-, water-, and weather-resistant paint dries quickly to leave bold, easy-to-read marks and is safe for almost any surface.

- Extra large tip ideal for signage or safety marking where immediate identification is required
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.
- Valve-actuated tip releases paint on demand for smooth, continuous use
- Durable barrel resists breakage and self-storing cap fits snugly on end when not in use

POCKET PAINT MARKER Indelible Pocket paint marker with Reversible Nibs (chisel/flat bullet point)

Markal Pocket is a xylene-free, low-odor fast-drying liquid paint marker in a pocket size that provides long-lasting marks for almost any surface. Its reversible nib (chisel or flat-bullet) offers a variation of marking sizes. The flat-bullet side of the nib is engineered for easy and visible dot-marking.

- 6 colors for high visibility, excellent mark identification, quality control, and parts inspection
- Fast-drying, indelible permanent paint for immediate handling reduces work downtime
- Xylene-free paint reduces user health risks
- Strong reversible nib resists wear to provide long marking life
- Tip can be either chisel for broad or thin marks, or flat-bullet for dot-marking
- Marking size: chisel (10mm or 3mm), flat-bullet (10mm dot)
- Convenient pocket size marker: 11,7cm long x 2,5cm in diameter

SUPER FINE METAL MARKER Steel tip marker for fine line marking

The Super Fine Metal Marker's non-clogging, stainless steel tip makes precise marking easier and has the durability to stand up to hard, rough, and dirty surfaces. The industrial strength paint is available in five bright, easy-to-see colors and marks on almost any surface. Control the amount of paint by squeezing the flexible barrel, and can be carried in your pocket or toolbox without leaking or spilling.

- Super-fine, stainless steel tip won't clog for precise, permanent paint marking
- High-strength, flexible barrel for full control over how much paint to write with
- Available in five bright, easy-to-see colors for improved mark identification, quality control, and parts inspection
- Fast-drying, permanent paint for immediate handling reduces work downtime
- Stainless steel tip marks on rusty, rough, or dry surfaces
- Dry Time: 1 to 2 minutes

- Fast-drying paint easily removes leaving surfaces free of mark ghosting or paint residue
- PRO-WASH® W marks can be removed simply and quickly with water
- PRO-WASH® D marks can be removed with detergent solutions that have a pH level of 10 or above
- Xylene-free paint reduces user health risks and eliminates California Proposition 65, EPA HAPS and SARA 313 concerns in the U.S.A.
- High-strength, light-weight plastic barrel designed for industrial use

BALL PAINT MARKERS

BRIGHT, PRECISE AND PERMANENT

For over 40 years, Markal® has manufactured in its French location the best quality tube marker. With its steel ball tip pressed on a heavy-duty aluminum squeeze tube, and its thick and bright paint, these markers are suitable for most industrial applications. They will be your preferred marker where a bright and precise marking has to be done on a rough, wet or oily surface with a long lasting, UV and water -resistant paint.

STYLMARK — Ball tube marker for multiple surfaces

Markal® Stylmark® is a metal-ball tip marker for marking most surfaces. The aluminum squeeze tube and thick paint makes it suitable for rough, vertical and overhead surfaces with excellent adhesion on oily and wet surfaces. Xylene-free paint reduces user health risks.

- Durable steel ball tip marks with indelible paint on smooth or rough surfaces
- Steel ball tip is resistant to very rough surfaces for long marking life
- Offered in 3 sizes: 2mm, 3 mm and 6 mm for varied mark thickness
- 11 bold, bright paint colors are weather-, water-, and UV-resistant
- Unique paint designed to not drip on vertical or overhead surfaces
- Mark temperature resistance: 200°C (392°F)

Markal® ST.2100 is a metal-ball tip marker that meets European nuclear requirements. The low sulfur and low chloride content allows for safe marking on stainless steel. The aluminum squeeze tube and thick paint makes it suitable for vertical and overhead surfaces.

- Safe for use on stainless steel and other alloy metals where corrosion resistance is a requirement
- Paint formula confirmed using a typical analysis to contain:
 - < 200 ppm total halogens
 - < 200 ppm sulfur
- 6 low sulfur and low chloride paint colors are weather-, water-, and UV-resistant
- Unique paint designed not to drip on vertical or overhead surfaces
- Mark temperature resistance: 200°C (392°F)

HT.1000 — Ball tube marker for annealing and heat-treating

DETAILS

3MM	6MM		
96700	96702	○	White
96701	96703	●	Yellow

Markal® HT.1000 is a metal-ball tip marker that is ideal for annealing and heat-treating operations. Mark at ambient temperature and the high-performance paint withstands temperatures up to 1000°C. The aluminum squeeze tube and thick paint makes it suitable for rough, vertical and overhead surfaces with excellent adhesion on oily and wet surfaces.

- High temperature paint is ideal for welds, ingots, castings, forgings, and other annealed parts
- Paint withstands temperatures up to 1000°C
- Permanent paint marks will not rub off, allowing for long-lasting identification
- Durable steel ball tip marks with indelible paint on rough or smooth surfaces
- Offered in 2 sizes: 3 mm and 6mm for varied mark thickness
- High-performance paint designed not to drip on vertical or overhead surfaces

SECURITY CHECK PAINT MARKER — Torque Paint Marker

PLASTIC TIP: Designed to provide the possibility of various marking sizes. It also increases the precision of the marking simply by screwing the nozzle on the head of the marker. Thanks to its length (5cm), the marker's head is extended by 3 cms, offering easy access to hard-to-reach areas.

Security Check Paint Marker provides a convenient visual method for identification of vibratory loosening or tampering in nuts, bolts, fasteners, and assemblies. High visibility paint mark becomes a hard film that breaks easily. Ideal for quality control and warranty work. Safe on most surfaces, adheres perfectly to metal. Safe for the user, doesn't contain xylene.

- High visibility paint for a fast and easy visual check : security indicator or tamper-evident seal on assemblies facilitating detection of any accidental or malicious adjustment movement
- Paint free of heavy metals for a safe use on metal and for the user
- Effective volume superior compared with other products in the market (50 ml paint) for a longer period of use and reduced work downtime
- Mark temperature resistance: 200°C (392°F)

- Plastic cap keeps tip clean between jobs
- For low corrosion (low chlorides/halogens) applications

* Indicates that this marker color is low in chlorides, halogens, and sulfurs for low corrosion marking requirements.

SOLID PAINT MARKERS

DURABILITY OF PAINT CONVENIENCE OF A CRAYON

With the introduction of the original B® Paintstik® in 1934, Markal® changed the face of industrial marking by creating a product that combines the durability of paint with the convenience of a crayon. Since that time, we have continued to build on this innovation by engineering unique marking solutions, making our Paintstiks one of the most diverse and commonly used types of industrial marking tools available. These solid paint crayons can mark almost any surface and are ideal for metal fabrication, metal production, welding, construction, and many other industrial uses.

Created for very rough surfaces such as forgings, castings, concrete and lumber, the B-E Paintstik marks a wider line more clearly seen on cold, wet, dry or oily metal or wood surfaces.

- Soft solid paint for easier marking on rough or colder surfaces
- Marks withstand prolonged immersion in water for long mark life
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use
- Weather- and UV-resistant

F® PAINTSTIK® — Solid paint crayon in fluorescent colors

A solid paint crayon that contains bold, fluorescent colors to create high-visibility marks. The F® Paintstik® is ideal for instant identification especially in low light conditions.

DETAILS

82831		Yellow Fluo	82835		Blue Fluo
82832		Red Fluo	82836		Green Fluo
82834		Orange Fluo	82842		Pink Fluo

- Vibrant colors for improved visibility
- Fluorescent marks glow under UV or black light
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use

M® & M-10® PAINTSTIK® — Solid paint crayon for annealing and heat-treating

Ideal for annealing and heat-treating operations, the M® and M-10® Paintstiks mark at room temperature and withstand temperatures up to 982°C (1800°F).

DETAILS

M®			M-10®		
81920		White	82020		White
81921		Yellow			
81922		Red			
81923		Black			

- Marks will withstand immediate quenching in water or oil
- Ideal for welds, ingots, castings, forgings, and other annealed parts
- M® Paintstik® withstands 871°C (1600°F)
- M-10® Paintstik® withstands 982°C (1800°F)
- Durable marks will not rub off, allowing for long-lasting identification

N® PAINTSTIK® —

Marks will not show through top coat of paint or primer

This specialized solid paint crayon formula leaves marks that will not show through the finishing coat of paint or top coat of primer, eliminating the cost and time of mark removal.

- Marks will not show through top coat of primer or finished layer of paint
- Ideal for ship building or other metal fabrication
- Solid paint formula designed for marking on wet, dry, oily, rusty, icy, smooth, or rough surfaces
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use

DETAILS
82120 ○ White

17 MM

P® PAINTSTIK® —

Marks are removed in the galvanizing process

The P® Paintstik® is designed for use in pickling baths or galvanizing operations. The marks completely remove and will not interfere with the zinc coating.

- Marks remove in pickling baths to allow excellent adhesion for zinc coating
- Superior marking on rough, rusty, oily, or smooth surfaces compared to liquid paint markers
- Solid paint crayon makes wide, bold marks for instant identification
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use

DETAILS
83420 ○ White

LACQUER-STIK® —

Solid paint crayon for fill-in stamped or engraved lines

Lacquer-Stik is a specially formulated solid paint crayon designed to color-brighten stamped or engraved lines and lettering

- Highlighter, fill-in paint provides bold, bright colors for even the smallest engravings
- Rubs in and wipes off easily, dries quickly
- Paint stays flexible, expands and contracts with the surface, for long-lasting color
- No mess or waste, eliminates dripping paint
- Mark temperature resistance: up to 260°C (500°F)
- Meets U.S.A. federal specification TT-F-325a I and MIL-STD 171, Finish No. 30.1.1, Type I

ENGRAVERS P-57

WS-3/8® PAINTSTIK® — Water-soluble, removable solid paint crayon

The smooth-writing WS-3/8 Paintstik® is a removable solid paint crayon. The fine line marks are easily wiped away with water and will not ghost on non-porous surfaces.

DETAILS

82420	○ White	82422	● Red
82421	● Yellow	82423	● Black

- Water soluble for easy removal before production or finishing
- Smaller diameter for finer line marking
- Ideal for temporary marking on non-porous surfaces
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use

ZEPHYR® PAINTSTIK® — Wear-resistant, water-soluble solid paint crayon

Ideal for temporary marking of glass and other non-porous surfaces, Zephyr® solid paint crayon is wear-resistant for durable marking and can be wiped off with water.

DETAILS

51321	● Yellow
-------	----------

- Water soluble for easy removal from glass and other non-porous surfaces
- Wider, more wear-resistant marks than WS-3/8®
- Marks will not damage surface or ghost after removal
- Easy-to-hold, recyclable paperboard holder protects Paintstik® for maximum use

- Industrial-strength paint dries quickly for long-lasting, permanent marks
- Solid paint marker easily advances for paint on demand
- Marks on virtually any surface: wet, smooth, or rough
- Airtight, self-storing cap keeps the marker clean and fresh between uses
- Available in seven bright, easy-to-see colors
- Weather- and UV-resistant paint for long-lasting mark
- Cured marks will withstand temperatures in excess of 500 °F (250 °C)
- Dry Time: 1 minute
- LOW CORROSION, properties :
 - 200 ppm chlorides and total halogens
 - 250 ppm each low melting point metals
 - 250 ppm sulfur

SOLID PAINT MARKERS - HOT SURFACES

EXTREME TEMPERATURES

The tools required in a smelter or forge and casting foundries must be able to consistently perform and be able to withstand extreme temperatures, and industrial markers are no exception. Our hot surface line of solid paint markers will only begin producing marks when in the stated working temperature, and will provide long-lasting, highly-visible marks that will not run, char, flow, discolor, peel, or crack. With rated temperatures, from 49°C (120° F) to 1204°C (2200° F) these markers are ideal for use on coils, billets, bars, lingots, and plates.

REAL PAINT FOR HIGHLY VISIBLE & RESISTANT MARKS

Ideal for marking coils, billets, plates, castings and forgings, Markal®'s Solid Paint Markers for hot surfaces provide long-lasting marks which will not run, char, discolor, peel, or crack.

The industry original, Markal® H® Paintstik® hot surface solid paint marker is a high temperature metal marker used in steel mills to mark on hot surfaces (107°C to 593°C)

- Forgings and parts can be immediately dipped into cold water baths without damaging the marks
- Can be removed in pickling baths

Designed for marking red-hot surfaces (204°C to 871°C), the HT® Paintstik® hot surface solid paint marker withstands the rigors of steel production. Available in 6 bold colors, the durable weather- and fade-resistant marks will not run, char, flow, discolor, peel or crack.

- Lasts longer, up to 6X the writing life of competitive hot chalk
- Fast-drying marks are not damaged during handling or when immersed in cold water baths

HT-34 Paintstik hot surface solid paint marker writes on red-hot steel surfaces (204°C to 982°C). Long-lasting, weather- and fade-resistant paint provides bright, identifiable white marks in steel production.

- Lasts longer than competitive hot chalk, for extended writing life
- Fast-drying marks are not damaged during handling or when immersed in cold water baths

HT-40 Paintstik hot surface solid paint crayons mark easily on red-hot surfaces (177°C to 927°C). The extra-wide paint marker is easy to hold, even with gloves.

- Extra-wide hot surface marker lasts longer than competitive hot chalk, for extended writing life
- Durable marks will not run, char, flow, discolor, peel or crack
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use

HT-75® PAINTSTIK® — White-hot surface marker

93 °C → 538 °C
200 °F → 1000 °F

19 MM

A permanent, hot surface marker, HT-75 Paintstik solid paint crayon marks on a variety of hot surfaces such as aluminum, steel, and hot rubber. The multi-purpose solid paint marker provides superior weather- and fade-resistance and features an extra-wide design for highly visible marks.

- Extra-wide hot surface marker lasts longer than competitive hot chalk for extended writing life
- Fast-drying marks are not damaged during handling or when immersed in cold water baths
- Easy-to-hold, recyclable paperboard holder protects Paintstik for maximum use
- Real paint for long-lasting, highly visible marks

84820 ○ White

K® PAINTSTIK® — White-hot surface marker

982 °C → 1204 °C
1800 °F → 2100 °F

19 MM

K® Paintstik® hot surface solid paint crayons are ideal for use when marking extremely hot steel. The marks will not burn off and remain readable and highly visible in all weather conditions.

- White-hot surface paint crayon writes on iron, steel castings, ingots, forgings, blooms, billets and high temperature metal alloys.
- Extra-wide hot surface marker lasts longer than competitive hot chalk, for extended writing life
- Marks are readable even on white-hot steel for instant identification

DETAILS

81820 ○ White

X-5® PAINTSTIK® — Dual-purpose marker for hot or cold surfaces

66 °C → 482 °C
150 °F → 900 °F

9,5 MM

The X-5 solid paint marker is recommended where marking temperatures vary rapidly (66°C to 482°C). This hot surface paint crayon is ideal for very rough surfaces such as open-hearth ingots, forging, hot slabs, and other metals.

- Dual-purpose paint crayon is ideal for use where temperatures vary rapidly from hot to cold
- Unique marker is ideal for very rough surfaces like open-hearth ingots, forgings, and rough castings
- Formulated for foundries and mills where extreme temperature change occurs
- Durable marks will not run, char, flow, discolor, peel or crack, but can be removed at higher temperatures

HOLDERS

ENHANCE DURABILITY AND COMFORT

Markal® holders protect your solid paint crayons, paintstiks, lumber and scanning crayons.

HOLDER 100 — Wooden holder for hot surface paint crayons

The easy-to-use #100 wooden holder helps prevent breakage and makes the hot surface solid paint crayons easy to hold during use.

- Durable wooden holder protects the marker during use for long marking life
- Adjustable metal ring secures marker in holder
- Designed for use with the following Markal® hot surface solid paint markers: H®, HT®, HT-34®, HT-40®, X-5®

DETAILS
85500

LENGTH
10,2cm (4")

HOLDER 102 — Adjustable metal holder for solid paint crayon

The #102 metal holder protects solid paint crayons, reduces hand fatigue and keeps workspace clean. Easy-to-advance, adjustable holder maximizes marker life.

- Durable metal holder promotes long work-life for all standard 1.7 cm (11/16") size Markal solid paint crayons.
- Adjustable mechanism easily advances paint crayon
- Designed for use with the following Markal standard size solid paint crayons: B®, B-E®, B-L®, BL-W®, F®, M®, M-10®, N®, P®
- For safer distance marking, 0.6 m (24") and 0.9 m (36") extensions are available for special order

Marker not included

DETAILS
85100

LENGTH
15,2cm (6")

HOLDER 107

Metal holder for small diameter solid paint crayons

This durable metal holder is built for ease of marking and protects small diameter solid paint markers from breakage. Its push-button design makes for easy, single-hand use on the jobsite.

- Dependable holder protects fine size Markal® Paintstiks® for long work life
- Easy-to-use, push-button design reduces work downtime
- For safe distance marking, 0.6 m (24") and 0.9 m (36") extensions are available for special order
- Designed for use with the following Markal® solid paint markers: B-3/8 and WS-3/8®

Marker not included

DETAILS
85300

LENGTH
14 cm (5,5")

HOLDER 108

Metal holder for hex-shaped industrial markers

This specially-designed holder and leather wrist strap reduces hand fatigue and protects hex-shaped Markal® markers on the jobsite.

- Heavy-duty metal holder helps prevent breakage, reducing costs
- Push-button advancing reduces downtime for increased productivity
- Comfortable leather wrist strap helps prevent dropping
- Designed for use with all 1.3 cm (1/2") Markal hex-shaped markers: Lumber crayons #200, #500, Pro-EX®, and Tyre Marque®
- For safe distance marking, 0.6 m (24") and 0.9 m (36") extensions are available for special order

Marker not included

DETAILS
85400

LENGTH
15,2 cm (6")

HOLDER 111

Extra-long metal holder for hot surface paint crayons

The extra-long design and reliable metal holder aides hot surface marking from safer distances.

- The longest metal holder for hot surface marking
- Durable, push-button metal holder is easy to use, even with heavy-duty gloves
- Designed for use with the following Markal® hot surface solid paint markers: H®, HT®, HT-34®, HT-40®, X-5®
- For safe distance marking, 0.6 m (24") and 0.9 m (36") extensions are available for special order

Marker not included

WELDING MARKERS

LONG-LASTING AND VISIBLE

The first step to creating a durable, long-lasting weld is using the best tools available to meet the level of precision required during the process. Markal® offers the best in economical and specialized welding markers to produce longer-lasting and more visible marks guaranteed to not contaminate or cause inclusions, pitting, or porosity in the weld. The temporary range of welding markers includes Welders Pencils, soapstone, and other high-visibility layout markers.

SILVER-STREAK® & RED-RITER® WELDERS PENCILS — Welders pencils for metal layout and fabrication

DETAILS

96100 ● Red-Riter®
96101 ● Silver-Streak®

RETAIL PACKS

22220 3x ● Silver-Streak®
22219 2x ● Silver-Streak® +
1x ● Red-Riter®

Markal® Silver-Streak® and Red-Riter® welders pencils make torch-resistant marks that will not burn or rub off like soapstone. Ideal for fine line marking during metal layout and fabrication, these highly visible marks illuminate when cutting or welding.

- Reflective lead illuminates when cutting or welding for improved visibility
- The soapstone alternative: marks resist torch flames; will not rub, burn or blow off.
- Durable marks will not scratch or abrade metal surfaces
- Available in two highly visible colors: red for aluminum or other bright metals, silver for darker surfaces
- High-strength, hex-shaped pencil reduces barrel roll unlike competitive brands
- Pre-sharpened pencils can be easily resharpened with any standard pencil sharpener

SILVER-STREAK® ROUND — For welding, metal layout and fabrication

Markal® Silver-Streak® metal markers are ideal when highly-visible, torch-resistant marks are required during metal layout and fabrication work. The unique reflective lead is more visible through a welder's filter Flat and will not rub, burn or blow off like soapstone. Marks on all metal surfaces including oily or wet.

- Highly visible marks illuminate when cutting or welding
- Superior to soapstone in markability and durability; will not rub, burn or blow off surface
- Marks on oily, wet or rusty metals, and will not scratch or abrade surfaces
- Available in flat and round shapes
- Durable holders prevent stick breakage
- Durable, mechanical holder prevents stick breakage and features a convenient, built-in sharpener and pocket clip for easy storage.

 22228 ● 1 refill pack Red-Riter®

Markal Silver-Streak® and Red-Riter® welding refills for Trades-Marker® Dry make torch-resistant marks that will not burn or rub off like soapstone. Ideal for fine line marking during metal layout and fabrication, these highly visible marks illuminate when cutting or welding.

- Silver-Streak® Refills - Unique silver reflective lead perfect for welding and fabricating
- Red-Riter® Refills - Red lead perfect for welding and fabricating on aluminum, stainless steel and other light metals
- Durable and heat-resistant marks last longer than soapstone
- Ideal for use on and safe for all metals; clean, oily, or rusty
- For use only with Markal Trades-Marker® Dry
- Ø=2.8mm, L=125mm.

All-natural soapstone is the economical, versatile solution for temporary marking during welding operations. Marks are easily removed and will not contaminate welds.

- Temporary marks can be easily removed
- Marks will not contaminate weld or damage metal surface
- Holders for flat shapes reduce breakage
- For more visible and durable marks, see our Silver-Streak® and Red-Riter® metal markers

TEMPERATURE INDICATORS

FAST ACCURATE RESULTS

For the best in weld integrity, heating base materials to highly specific temperatures is required and our line of Thermomelt® temperature indicators offers the best combination of speed, ease of use, and accuracy. The simple-to-use stick melts quickly when applied to a surface at the stated temperature on the package to guarantee fast and accurate results every time without calibration.

TEMPERATURE INDICATORS (MARKAL)

THERMOMELT® HEAT-STIK® — Accurate surface temperature indicating stick

Thermomelt® HEAT-STIK® markers are a quick, low-cost method to accurately measure surface temperatures of various metals and equipment. Available in 23 Fahrenheit and 7 Celsius temperatures, the stick-in-holder design provides convenience and durability for long-lasting use in the workshop or in the field. Please note that the color of the Thermomelts are not a part of their function, since the temperature signal consists of melting. Indicator color is subject to change without notice.

- When the stick melts, the precise temperature is reached
- Long-lasting stick is 33% bigger than competition
- Accurate to within +/- 1% of Fahrenheit and +/- 3% Celsius rated temperatures; no need for sensor calibration
- Ideal for: pre-heating, post-weld heat treating, interpass temperature monitoring, stress-relieving and annealing
- Protective holder, shirt-clip and adjustment ring prevents breakage and improves handling
- For low corrosion (low chlorides/halogens) applications, see Thermomelt - Low Corrosion Temperatures
- Meets welding codes: AWS D1.1, ANSI/ASME Code B32.1 & B31.3, ASME Code Sec. I, III, and VII, NIST Traceable

CERTIFIED THERMOMELT® HEAT-STIK® — Nuclear pre-certified, accurate temperature indicating stick

Pre-certified to meet nuclear and military low-corrosion specifications for stainless-steel fabrication and other super alloys, the Markal® Certified Thermomelt® HEAT-STIK® is a quick method to accurately measure metal surface temperatures and equipment. The 20 available temperatures are lot traceable for jobsite documentation. Please note that the color of the Thermomelts are not a part of their function, since the temperature signal consists of melting. Indicator color is subject to change without notice.

- Certified to meet the following U.S.A. and international specifications: LOW CORROSION, propriétés types :
 - EDF PMUC
 - MIL-STD-2041D
 - U.S DOE RDT F-7-3T (expired)
 - U.S Navy C3070
- Engineered to meet:
 - 200 ppm total halogens
 - 250 ppm each low melting point metals
 - 300 ppm total low melting point metals
 - 200 ppm sulfur
- Individual lot analysis and certification available at www.markal.com/certified for quick, accurate reference
- Protective holder, shirt-clip and adjustment ring prevents breakage and improves handling

INK MARKERS

IMMEDIATE MARK AND DRY

Preferred for their ability to immediately mark and dry on almost any type of surface, felt-tip ink markers can be found on almost any job site, in any factory, or throughout warehouses and shipping departments around the world. Our line of DURA-INK® markers utilize industrial-grade construction, tips, and long-lasting inks, making them ideal for use in almost any application.

Extra-tough tips

Whether marking on cardboard or steel, the extra-tough tips resist spreading or mushrooming, ensuring long life and accurate marking performance.

Wear-resistant ink formula

Formulated to dry quickly and leave bold, highly-visible marks, the industrial grade ink is safe for use on almost any surface and is wear and water-resistant.

Durable and lightweight barrels

Lightweight enough to reduce hand fatigue, but large enough to be used comfortably even with work gloves, these impact-resistant barrels will hold up in tough working environments and help to extend the life of the marker.

Roll-Resistant

Composed of sturdy plastic, these impact-resistant caps are designed to offer a quick and complete seal to prevent premature dry-out. The convenient clip caps help the markers to store easily in a pocket or tool belt, and resist rolling off of a table or workbench.

DURA-INK® 5 —

Permanent ink marker with extended micro tip

The DURA-INK® 5 is a permanent ink marker that uses an extended micro tip for precision marking needs and is ideal to use through drill holes, mounting brackets, or in any hard to reach area. The industrial-strength ink dries quickly on almost any surface and is wear- and weather-resistant.

DURA-INK® 15 —

Permanent ink marker with fine bullet tip

Ideal for layout work and parts identification, the DURA-INK® 15 permanent ink marker has a fine bullet tip for precise marking. The wear-resistant, fast-drying ink and durable tip and barrel makes this marker ideal for industrial environments.

DURA-INK® 20 —

Retractable permanent ink marker with fine bullet tip

The DURA-INK® 20 retractable permanent ink marker uses a one-handed, push-button for easy opening and closing. The convenient capless feature makes it ideal for use in tight work spaces and eliminates mess or lost caps.

DURA-INK® 25 —

Metal barrel, permanent ink marker with medium chisel tip

The DURA-INK® 25 permanent ink marker's large, chisel tip offers the flexibility of producing fine or broad marks on almost any surface. With an extra-large ink supply and metal barrel, this marker offers longer marking life and durability.

- One-handed, push button operation eliminates lost caps and prevents ink dryout
- Auto-storing clip instantly retracts tip to reduce mess or tip damage

DURA-INK® 55 — Permanent ink marker with medium chisel tip

For flexible, finer line marking, the DURA-INK® 55 features a medium chisel tip to produce both fine and broad permanent marks. This economical, durable plastic barrel withstands tough industrial uses and is the alternative to the high-cost metal barrels.

DURA-INK® 60 — Permanent ink marker with medium bullet tip

The DURA-INK® 60 is a permanent ink marker with a durable, medium bullet tip to provide bold, clean marks. Ideal for industrial use, the ergonomic plastic barrel is easy to use even with work gloves.

DURA-INK® 200 — Permanent ink marker with broadchisel tip

Ideal for equipment identification and signs, the DURA-INK® 200 permanent ink marker uses an over-sized tip to create large, highly-visible marks. The extra-large industrial barrel contains more ink for longer marking life.

DURA-INK® WASH-AWAY® — Wash removable ink marker for temporary marking

The DURA-INK® WashAway™ is a temporary ink marker that will quickly and completely wash off non-porous surfaces with water or cleaning solutions without leaving a residue or ghosting on the surface. Engineered specially for temporary marking applications, the highly-visible ink formula dries quickly to avoid smudging or lost marks and is ideal for use on most metals and glass.

TRADES-MARKER® DRY — Deep-hole Marker for hard-to-reach areas

TRADES-MARKER® DRY is a graphite clutch pencil with an extended fine tip. Fully designed in metal for more resistance than plastic holder, it incorporates a convenient sharpener and a clip. It can also be used with color leads for bright and dark surfaces, or with Welding refills featuring Silver Streak® and Red Riter® leads.

- Fine tip extends to 45mm, ideal for hard-to-reach places (allows for deep markings, in fixation holes)
- Cap, body and clip in metal to ensure durability and strength for professional use
- Automatic lead ejection: a single press on the button pushes the lead out by 2mm
- Practical as it is always at hand, the sharpener is incorporated into the push button, allowing for extremely precise markings
- Sturdy clip for hooking onto shirts or pants.
- Lead easy to replace: unscrew the push button, insert the new lead, screw the button back in (colored lead must already be sharpened before insertion)
- Thanks to 4 types of refills, (graphite, colored for polyvalent marking, or welding refills with Silver-Streak® and Red-Riter®), it can write or mark on all types of surfaces and materials (dusty, rough, smooth, greasy, wet, dark, etc.)
- Uses lead 2.8mm in diameter, compatible with other refill types on the market

TRADES-MARKER® — Mechanical, all-surface marker

TRADES-MARKER® has the marking versatility of a paper-wrapped grease pencil combined with simple push-button advance that helps reduce cost and waste. This refillable, all-surface marker leaves a wear-resistant mark and is safe for all surfaces.

- Great for many surfaces including: smooth, rough, rusty, or dirty surfaces
- Marks are rub- and weather-resistant, leaving a bold, permanent mark
- Marker refills eliminate mess and paper waste of grease pencils, saving time and money
- Holder maximizes complete use of marker
- Durable plastic holder helps prevent breakage and keeps hands and clothing clean
- Push-button advancing makes for easy, one-handed use.
- Convenient clip allows for pocket storage and prevents rolling off work table
- Multiple colors available for easy identification

DETAILS

1 HOLDER + 12 REFILLS

96130	White	96133	Black*
96131	Yellow	96137	Orange
96132	Red*		

* Indicates that this marker color is low in chlorides, halogens, and sulfurs for low corrosion marking requirements.

TRADES-MARKER® WS Water-soluble, removable, mechanical all-surface marker

TRADES-MARKER® WS is a refillable, all-surface marker that leaves a removable mark and is safe for all surfaces. Marks can be wiped away easily with water.

- Great for many surfaces including: smooth, rough, rusty, or dirty surfaces
- Marks can be easily wiped away with water, ideal for quality control and temporary marking needs
- Holder maximizes complete use of marker
- Durable plastic holder helps prevent breakage and keeps hands and clothing clean
- Push-button advancing makes for easy, one-handed use.
- Convenient clip allows for pocket storage and prevents rolling off work table
- Multiple colors available for easy identification

TYRE MARQUE®

Temporary solid paint crayon for tire marking

For temporary marking on tires, the TYRE MARQUE® solid paint crayon marks smoothly on many surfaces. These bright, smear-resistant colors are easily seen in low light areas and are ideal for tire marking.

- Smooth marking on rough or dirty surfaces for bold, visible marks
- Marks easily on wet or cold rubber surfaces

LUMBER CRAYON 200®

Economical, wax-based lumber crayon

Markal® Lumber Crayon #200® is a soft, standard-grade lumber crayon for general-use marking and works well in cold climates. The wax-based mark is weather- and UV-resistant.

- Known in construction trades as «keel» or layout chalk
- Formulated for weather- and fade-resistant marking on most surfaces
- Special softer formula allows for superior marking in cold climates

ULTRASCAN® — High-performance crayon for grade mark readers

Markal® ULTRASCAN® lumber grading crayons provide the best color separation and character recognition in the industry for grade mark readers.

- Bright colors provide the highest fluorescent response of any lumber grading marker
- Maximum character recognition and accuracy for the lowest possible reject rates
- Each batch is tested to meet the specifications for Lucidyne ColorScan® and Newnes-McGehee grade mark readers
- Unique formula provides excellent writing on wet and green lumber, even with fungicide coating
- colors for superior color separation compared to competitive fluorescent wax crayons
- Specifically developed for Lucidyne, Newnes-McGehee and Cypress grade mark readers
- One hardness for all temperatures, eliminates duplicate inventory
- Dramatically longer use, provides up to 4X the writing life of competitive crayons

SCAN-IT® PLUS — Crayon for grade marking

Markal® SCAN-IT® PLUS is a versatile grade marking crayon with multiple hardnesses and sizes to mark most lumber types in varying production environments.

- Each batch is tested to meet the specifications for Lucidyne ColorScan® grade mark readers
- Superior color separation for accurate grading compared to competitive crayons
- Makes smear-resistant marks, reduces scanning errors
- Up to 14 fluorescent colors in three hardnesses for varying production environments
- Offered in 2 sizes: standard 17 mm (11/16"), hex shape 13 mm (1/2")

SM.500 — Fluorescent spot marking aerosol spray

SM.500 is a spot marker with high-pigmented fluorescent paint for high visibility on any surface. This exterior-grade paint degrades slowly under UV exposure making it ideal for outdoor job sites like highways, commercial construction sites, pipelines, and land development.

- Paint adheres to most surfaces and dries quickly for increased work productivity
- Opaque fluorescent paint improves mark visibility in all weather conditions
- UV-resistant paint slowly degrades, extending mark life on outdoor surfaces
- Security cap prevents unintended paint release
- Seven colors for color coding on job site

ZS.124 / ZS.130 Oval Carpenter pencil

ZS 124 & ZS.130 are carpenter pencils, ideal for marking wood, cardboard, and other surfaces. The premium quality wood resists breaking when stored with heavy tools. Available in 24 and 30 cm.

- HB. soft lead is easy to sharpen
- Design prevents rolling on surfaces and is easy to use
- Red varnish coating protects pencil for outdoor use
- High-quality wood resists breaking when stored with heavy tools
- Unsharpened when delivered

ZS.224 / ZS.230 Masonry Pencil

ZS 224 & ZS.230 are masonry pencils, ideal for marking on stone and other hard surfaces. The premium-quality wood resists breaking when stored with heavy tools. Available in 24 and 30cm.

- Soft lead is easy to sharpen
- Hard Graphite lead for great durability
- Oval design prevents rolling on surfaces and is easy to use
- Green varnish coating protects pencil for outdoor use
- High-quality wood resists breaking when stored with heavy tools
- Unsharpened when delivered

ZS.324

ZS.324 is a red varnished triangular pencil, ideal for marking on every kind of smooth surfaces, including glass. The premium-quality wood resists breaking when stored with heavy tools.

- Soft lead is easy to sharpen
- Graphite lead easy to remove
- Triangular design prevents rolling on surfaces and fits well in the hand.
- Red varnish coating with dipped end protects pencil for outdoor use
- High-quality wood resists breaking when stored with heavy tools
- Sharpened when delivered

ZS.424

ZS.424 is a blue varnished rectangular pencil, ideal for marking on wet wood. When used dry, it leaves a gray mark similar to a pencil's lead, but which cannot be erased. When used wet, its tip moistened by water produces an indelible bright purple writing.

- Soft lead is easy to sharpen
- Rectangular design prevents rolling on surfaces and fits well in the hand.
- Blue varnish coating protects pencil for outdoor use
- High-quality wood resists breaking when stored with heavy tools
- Unsharpened when delivered

ENGRAVERS

MANUAL AND DEFINITIVE

Markal® engravers and etching markers leave permanent marks that outlast crayon, ink and paint marks. Our high performance micro-percussion, electric arc, or air-powered engravers use various marking techniques for glass, steel, tools, ceramics, plastics and most other industrial surfaces and tools.

CA.003 — Electric arc engraver

DETAILS

- 50421003 Complete machine
50422010 10 Electrodes

SPARE PARTS

- 50400000 Transformer
50421001 Electric arc marking pen
50422011 Contact plate
50400001 Mandrel + pliers
50422001 Coil 12V

- Burns deeply into the conductive metals using a 40 watt arc strength and 100 arcs/second for bold, permanent marks
- Produces an accurate mark and, unlike crayons or paint, will not smear, crack, peel or chip
- Engraving marks are unaffected by weather and UV-light for long-lasting identification
- Fill in the deep marks for increased visibility with Markal Lacquer-Stik®
- Carrying case included for easy storage and transport
- Product includes: 12-15V transformer, engraver, pack of ten electrodes,

conductive Flat receptacle and carrying case

- One year parts and labor warranty
- Fast repairs made at LA-CO Industries Europe S.A.S. facility
- Quality-made in France since 1970
- CE approved

VG.490 — Universal electric engraver

DETAILS

- 50431700 Complete machine

SPARE PARTS

- 50431720 Tip adapter
50431721 Diamond tip
50431722 Carbide tip (Pack of 5)
50431723 Profiled Tip (1 of each)

- Micro-percussion tool produces impacts for bold, permanent marks on multiple surfaces
- Produces an accurate mark and, unlike crayons or paint, will not smear, crack, peel or chip
- Engraving marks are unaffected by weather and UV-light for long-lasting identification
- Fill in the deep marks for increased visibility with Markal Lacquer-Stik®
- Complete with one box including 4 tips and an adapter for marking various surfaces.
- Carrying case included for easy storage and transport
- Vibration strength: a (peak)~= 74,02 m/s² = 7,545 g (peak value) a (rms)~= 52,34 m/s² = 5,336 g (rms-value/root-mean-square-value)
- Cable length: 1,8 m

Filling deep marks with
Lacquer-Stik® Markal for a better visibility

P.34

Universal engraver for all materials from soft to extra hard surfaces like iron, steel, glass, non ferrous metal, stone, ceramic plastic, wood, and more. Easy and convenient, our VG.490 is plugged directly into mains and is used like a pen. Delivered with diamond hard metal and carbide tip, one pack of 2 modelling tips for soft metals such as copper, tin and Aluminum ...

1. Tip adapter
2. Diamond Tip
3. Carbide Tip
- 4 & 5. Profiled Tips

PN.500 — Pneumatic engraver

DETAILS

50431500 PN.500

SPARE PARTS

50432001 Carbide tip 0,20mm
50432002 Carbide tip 0,35mm
50432003 Carbide tip 0,50mm

- High-frequency impacts produce deep, highly-visible marks on various surfaces
- Ideal for continuous use on assembly lines or anywhere high-volume engraving is required
- Produces an accurate mark and, unlike crayons or paint, will not smear, crack, peel or chip
- High-quality steel body for industrial applications
- No transformer : lightweight for easy operation
- Use compressed air supply (6 BAR maximum) to adjust depth of marks
- Long one meter connection hose for flexibility at work station
- Fill in the deep marks for increased visibility with Markal® Lacquer-Stik®
- Carbide tip 0.35 mm included

SC.800 — Acid etching pen

DETAILS

50121800 SC.800

REFILLS ACIDS

50122004 SC.862 Blue
50122005 SC.865 Green

NEUTRALIZING SOLUTION

50123871 SC.871

- Permanent etched mark for identification on various metal surfaces
- The acid etch produces an accurate mark and, unlike crayons or paint, will not smear, crack, peel or chip
- Hand-held etching marker is portable; does not need a power or air supply
- Ideal for identification, security, and theft prevention
- Two replaceable cartridges:
 - SC.862 blue cartridge to etch steel used in construction or tools
 - SC.865 green cartridge to etch stainless steel, copper, nickel, lead, alloy, and bronze
- SC.871 corrosion inhibitor solution stops the etching process for improved control

DOT MARKERS

AUTONOMOUS, RELIABLE AND ECONOMICAL

Markal® has developed autonomous dot markers that could be integrated into a machine. Based on same technology as our Stylmark®, our STYLOTUBE will mark on many kind of surfaces with a bright and permanent mark, for quality control or processing.

PN.200

Automated dot marker

PN.200D

Automatic refillable ball tube marker for dots marking

RS.2000 & RS.1000

Replacement paint cartridge for Stylotube

Markal® Stylotube PN200 is an automated metal-ball tip marker for high volume dot marking applications on assembly lines. Designed for easy installation into an automated process, the pressurized, hands-free marking system allows for full use of the replacement RS.2000 and RS.1000 refill cartridges.

Markal® Stylotube PN200D is an automated metal-ball tip marker designed for vertical, overhead or horizontal dot marking applications on assembly lines. The space-saving design allows for easier installation in automated processes and the pressurized hands-free marking system allows for full use of the replacement RS-type cartridges.

Markal RS.2000 replacement paint cartridge can be used with all Markal Stylotube marking products. The xylene-free paint will not drip making it suitable for rough, vertical and overhead surfaces with excellent adhesion on oily and wet surfaces. The low-sulfur, low-chloride, and low-halogen formula allows for safe marking on stainless steel

- Fully automated marking system allows for continuous paint delivery on vertical, overhead, or horizontal surfaces
- Space-saving design allows for easier installation in automated systems
- Requires use of compressed air supply (0.2 BAR)
- Pneumatic device improves productivity over manual marking products
- Pressurized system ensures full use of replacement paint cartridges
- Refillable stainless steel holder keep hands and clothing clean
- Durable steel ball tip marks on rough or smooth surfaces
- Offered in 3 sizes: 2 mm, 3 mm and 6 mm for varied mark thickness
- Designed for use with the following Markal® replacement cartridges: RS.2000, RS.1000

RS.2000

- Replacement cartridge for all Stylotube marking products
- Pressurized Stylotube systems ensure full use of replacement paint cartridges
- Unique paint designed to not drip on vertical or overhead surfaces
- 11 bold, bright paint colors are weather-, water-, and UV-resistant
- Safe for use on stainless steel and other alloy metals where corrosion resistance is a requirement
- Mark temperature resistance: 200°C (392°F)
- Designed for use with the following Markal Stylotube products: RS, RS.PN100, RS.PN200, RS.PN200D

RS.1000

- High temperature paint is ideal for welds, ingots, castings, forgings, and other annealed parts
- Paint withstands temperatures up to 1000°C

TEMPIL® TEMPERATURE INDICATORS

LEADER IN ADVANCED TEMPERATURE INDICATION TECHNOLOGIES

Since 1938, Tempil® has been a leader in the development of innovative and accurate temperature indication technology for multiple markets. Our cost-effective solutions can monitor your supply chain, check critical temperatures in the manufacturing process or ensure a product's performance in the field. With our Tempil products, we have utilized advanced and reliable indication and prevention technology, to produce a range of surface temperature products that allow for safe and versatile surface measurements. Cost-efficient, easy-to-use, and available in multiple formats to meet your specific application needs. Tempil is delivering the surface measurement solutions you can count on, when you need them most.

TEMPILSTIK® — Fast, accurate surface temperature indicator

Providing accuracy, confidence and compliance for over 80 years, Tempilstik® is the original temperature-indicating stick with the best combination of precision and convenience for surface temperature measurement. Specially engineered for accurate temperature indication in pre-heating, interpass and post-weld heat treating applications, Tempilstik® is the industry's leading choice for use in the most critical jobs. Please note that the color of the Tempilstik® are not a part of their function, since the temperature signal consists of melting. Indicator color is subject to change without notice.

- 116 temperatures available from 38°C (100°F) to 1093°C (2000°F)
- Stick instantly melts at designated temperature for easy and immediate visual inspection
- Calibration-free with 100% reliability
- Accurate to within +/- 1% of Fahrenheit and +/- 3% Celsius rated
- Comply with preheat temperature requirements of AWS D1.1, ASME Code Sec. I, III and VIII, ANSI/ASME Code B31.1 and B31.3.
- Imprinted part number, temperature and lot code across entire stick for improved traceability
- Made in USA

TEMPSTIK® TEST KIT — Temperature indicator and reference kit

DETAILS

28600 Test Kit including the following temperatures:

52°C	93°C	135°C	177°C	218°C	260°C	371°C
66°C	107°C	149°C	191°C	232°C	288°C	427°C
79°C	121°C	163°C	204°C	246°C	316°C	

Tailor-made for welding inspectors, instructors and supervisors, Tempstik® Test Kit is an essential, one-stop tool that provides you with all the information needed for determining the proper temperatures for welding, heat treating, soldering, brazing and other operations involved in the fabrication of most metals.

- 20 Tempstik® Test Kit indicators systematically spaced between 52°C (125°F) 427°C (-800°F)
- Stick melts at designated temperature for easy and immediate visual inspection with +/-1% accuracy.
- Calibration free with 100% reliability

IRT-16 — Non-contact infrared temperature measurement device

DETAILS

- 24200 IRT-16
- 24201 IRT-16 Certified
- 24202 K-Probe Thermocouple
- 24203 IRT16 Certified ISO/CEI 17011-EA-IAF

The IRT-16 is engineered to provide instant, superior accuracy and consistency in surface temperature measurement for a wide range of applications. The lightweight and compact design of the IRT-16 makes temperature measurement on hard-to-reach surface convenient and efficient.

- Temperature measurement range between -60°C (-76°F) -625°C (-1157°F) with read-out accuracy of +/- 2%
- Laser pointer with sensitive 16:1 distance to spot ratio for improved accuracy.
- Four-digit backlit dual display ideal for low-light areas
- °C or °F selectable readout
- Min/Max/Avg and differential temperature mode available
- Built-in jack for K-Type thermocouple probe to allow direct contact measurement
- NIST certified units available

ESTIK™ — Direct-touch electronic surface thermometer

DETAILS

- 24290 Estik™
- 24251 Estik™ Certified NIST
- 24252 Estik™ Thermocouple
- 24253 Estik™ Certified ISO/CEI 17011-EA-IAF

Incorporated with the latest micro-thermocouple technology and an advanced accuracy of +/- 2%, this patented Estik measures the surface temperature from 0°C to 537°C. Specially engineered for fast and convenient monitoring, Estik improves accuracy by eliminating errors due to reflection and other surface conditions.

- Ergonomic hand grip with one button operation
- Instant measurement read-out
- Three-digit bright LED display
- Durable heat-resistant housing with rubberized grip
- °C or °F selectable readout

TEMPILAQ® — Fast-indicating surface temperature coating

Tempilaq® Indicating coating is an efficient, convenient and affordable method to verify the achievement of a specific temperature on a wide range of surfaces under dynamic conditions. Easily painted on any surface, Tempilaq® leaves an irreversible mark that is optimal for heat-treating, preventive maintenance and any other temperature sensitive applications.

- Easy application with quick-dry formula on any surface
- Melts at designated temperature leaving a noticeably different mark
- Wide temperature range from 79°C (175°F) 1038°C (-1900°F)
- Excellent accuracy within +/- 1%
- Only use Tempilaq® Green Label Thinner to dilute or replace evaporated solvent

TEMPIL® TEMPERATURE SENSITIVE LABELS

TEMPERATURE MONITORING

Temperature indicating labels are an economical temperature indication solution that can be easily applied to almost any surface for later monitoring, making it ideal for preventative maintenance, logistics, quality control, manufacturing, and many other applications.

TEMPILABEL REVERSIBLE (LIQUID CRYSTAL®) — Reversible Temperature Indicating Labels

Providing users with a high level of flexibility, Tempilabel® reversible labels indicates accurate readings as the temperature fluctuates. Each label is equipped with seven specific temperature levels for easy identification and monitoring. Available in pack of 10 labels.

- Excellent accuracy of +/- 2% of the Fahrenheit rating
- LCD technology for real-time, accurate readings as temperature fluctuates
- Temperature range from -30°C (-22°F) 120°C (-248°F)
- Calibration-free
- Oil, water and steam resistant

DETAILS

26901	°C	30	35	40	45	50	55	60
	°F	86	95	104	113	122	131	140

	°F	140	149	158	167	176	185	194

TEMPILABEL® SERIES 4 & TEMPILABEL SERIES 21®

- Four temperature readings per labels for max/min applications
- Excellent accuracy to +/- 2% of the Fahrenheit rating
- Temperature range from 38°C (100°F) to 182°C (360°F)
- Permanent record for inspection and quality control
- Calibration-free
- Oil, water and steam resistant

TEMPILABEL® SERIES 4 — Four-Level, Irreversible Temperature Indicating Label

Tempilabel® Series 4 labels are designed to deliver immediate, accurate and reliable readings for up to four temperatures in a variety of applications or environments. Tempilabels can be quickly affixed to almost any surface and used to quickly indicate when a precise temperature is reached. Available in pack of 10 labels, or in pack of 500 labels.

HIGH TEMPERATURE COATING

WELDABLE PRIMER AND HEAT-ABSORBING COATING

TEMPIL® has developed specific products where heat causes troubles, from protecting NASA's Space Shuttle Orbiter to solar panels. TEMPIL® has also developed special weldable Primer to save time in the welding processes.

ANTI-HEAT®

Heat-absorbing compound

Anti-Heat® is specially formulated to eliminate heat damage and discoloration on materials exposed to high temperatures. Engineered to absorb and dissipate the heat generated by welding, brazing, or soldering from traveling through the metal surface, Anti-Heat® efficiently stops heat related damages such as buckling, cracking, warping or other metal distortions from occurring.

- Absorbs and dissipates heat to eliminate damage and discoloration
- Prevents heat migration through metal surfaces
- Non-toxic & Non-hazardous
- Asbestos-free and odorless
- Adheres to horizontal, vertical and overhead surface

DETAILS

24003 Anti-Heat tube (355 ml)

BLOXIDE

An aluminum-based weldable primer

Bloxide® is a versatile weldable primer with a unique aluminum-based formula that eliminates cleaning or removal before welding, thus saving time and labor costs. Enhanced by corrosion preventative features, Bloxide® can be applied to a wide range of metals for extended periods of storage, assisting in producing X-Ray quality welds.

- Enhanced corrosion resistance for extended periods of storage
- Aluminum-base formula allows for welding without removal, reducing downtime and rework contamination
- High temperature resistant to 427°C (800°F)
- Can be sprayed, brushed or parts can be dipped into it

DETAILS

24100 Bloxide 3,79L

24104 Bloxide 355ml (spray can)

PYROMARK®

High-temperature resistant coating

Pyromark® is a specially formulated coating for metal surfaces intended for high heat exposure. The silicone based coating provides long-lasting protection against oxidation and corrosion. Ideal for solar energy or any application that requires efficient heat transfer, the flat black formula is engineered with solar absorptivity of 0.95, which makes Pyromark® and almost perfect black box absorber.

- Silicone based coating for long-lasting protection against oxidation and corrosion
- Pyromark® 1200 withstands 538°C (1000°F)
- Pyromark® 2500 withstands 1093°C (2000°F)
- Improves heat transfer in infra-red heating applications due to high emissivity properties.
- Solar absorptivity of 0.95 is an ideal black box absorber.
- Only use Pyromark® Thinner to dilute or replace evaporated solvent

INDUSTRIAL MAINTENANCE PRODUCTS

MRO AND PVF CHEMICALS

Our LA-CO® brand of high quality, high-performance MRO, plumbing and HVAC chemicals is a globally trusted partner for professional contractors and maintenance departments. We are committed to serving several industries including plumbing, HVAC, pipefitting, maintenance operations, repair services and original equipment manufacturing...

SLIC-TITE® —Heavy-duty pipe thread compound

Specially formulated with PTFE for added sealing power, Slic-tite® is the premium thread sealant paste. It has been successfully used for decades to seal water, air, steam, natural gas, and more. It removes easily from skin and clothing. Slic-tite thread sealant works in extremely high pressure systems, and it comes with several approvals so that the job is completed to code.

SLIC TITE® STIK

41600 Stik 35g / 1 1/4 oz

- Contains PTFE for greater sealing power
- Pressures: 204 BAR (3,00 PSI) for gas; 680 BAR (10,000 PSI) for liquid
- Sealing temperature: -46°C to 260°C (-50°F to 500°F)
- Safe, non-toxic, non-drying
- Can be used on variety of metals and plastic, so you only need one thread sealant for many types of jobs
- Washes off hands and clothes easily; less time spent cleaning up
- Do not use on oxygen service; use Oxytite Paste or Slic-tite PTFE Tape

E-Z BREAK® COPPER GRADE Anti-Seize compound

Equipment vulnerable to galling and rust needs protection. The best way to protect your equipment from seizing and corrosion is to use EZ Break® Anti-Seize. Simply apply EZ Break® to nuts, bolts, and other metal parts, and your equipment will be rust free and easy to maintain.

- Working temperature: to 982°C
- Lubricates and protects nuts and bolts, making disassembly easy, even after years of service
- Resists galling, rust and corrosion so your metal parts won't "freeze up"
- Copper material is easy to use in most general applications
- Two different forms for easy use and application: paste and stick.

E-Z BREAK® NICKEL GRADE Anti-seize compound

Equipment vulnerable to galling and rust needs protection. The best way to protect your equipment from seizing and corrosion is to use EZ Break® Anti-Seize. Simply apply EZ Break® to nuts, bolts, and other metal parts, and your equipment will be rust free and easy to maintain.

- Working temperature: to 1427°C
- Lubricates and protects nuts and bolts, making disassembly easy, even after years of service
- Resists galling, rust and corrosion so your metal parts won't "freeze up"
- Nickel material is excellent for ultra-high temperature applications

8972	453g. BIC*

REGULAR FLUX Soldering flux paste

LA-CO Regular Flux is a water soluble flux that meets industry standard ASTM B813. With NSF and UPC approvals, this all-weather flux is the ultimate flux for all copper soldering.

- Water-soluble paste won't leave residue in water piping
- Meets industry standard ASTM B813 and contains no zinc chloride to reduce corrosion concerns.
- Non-acid, non-toxic, and lead-free to eliminate safety concerns
- Cleans pipe upon application, allowing solder to run more smoothly around the pipe
- All-weather formula for use in hot and cold climates
- Certifications
 - ASTM B813
 - NSF 61
 - UPC
 - Mil. Spec. Mil-F-4995 Type II

FLUX M-A

Stainless steel flux liquid

Developed for fast fluxing action on stainless steel, M-A Flux is excellent for projects on stainless gutters and roofs, among many other applications. It contains no zinc chloride and it will not cause progressive corrosion on stainless pipe. There is no neutralizing necessary when using it to solder stainless steel.

- Fast fluxing action for stainless steel and chrome
- Contains no heavy metal chlorides, preventing potential flux damage

DO NOT USE ON POTABLE WATER TUBING

DETAILS
23913 946ml

ALUMINUM FLUX PASTE

Solders aluminum at low temperatures

This flux paste is designed for aluminum-to-aluminum or aluminum-to-copper soldering at low temperatures. It provides for soldering below the melting point of the aluminum.

- Low-temperature soldering prevents aluminum components from melting
- New aluminum HVAC components will not stall job completion
- Resists electrolytic action between aluminum and copper, preventing leakage between dissimilar metals

DETAILS
22407 454g.

COOL GEL® — Gel Heat Barrier Spray

Cool Gel® can be used to protect lead free valves during the soldering process and with any other soldering or brazing job to protect components and materials from costly heat damage. Cool Gel's unique, no-drip gelled formula evaporates within 48 hours, eliminating cleanup. Using Cool Gel is easier than using a heat blanket, and provides assurance the job can be completed without costly heat damage.

- Protects lead free valves during soldering
- Reduces the threat of costly heat damage to rubber seals and gaskets
- Protects components and materials during soldering to avoid heat damage
- Protects painted and finished surfaces from discoloration due to torch heat
- Unique gelled formula sticks to surfaces without dripping or running off
- Clear, non-staining gel leaves no residue, eliminating

DETAILS
11509 946ml
11513 473ml

BLOC-IT®

Heat absorbing paste

This heat absorbing paste has been time tested for protecting materials from heat damage. Typical uses include soldering on ball, dielectric, and solenoid valve components. BLOC-IT prevents metal distortion and protects painted or finished surfaces from adjacent soldering, brazing, or welding.

- Absorbs heat effectively, protecting adjoining surfaces from heat damage
- Safe, non-toxic, no asbestos, harmless to skin, and odorless
- Easy application and cleanup; non-staining

DETAILS
11511 283g.

HEAT-SEAL STIK®

Premixed epoxy sealer for use on refrigeration systems

Refrigeration coils are prone to pinhole leaks and hairline cracks. Heat-Seal Stik® was specifically made to seal these small holes for an immediate fix, even if the appliance will need to be replaced eventually. Heat-Seal Stik works with heat - no mixing of epoxy compounds necessary.

- Sealing temperature: up to 177°C (350°F)
- Pressure: to 41 BAR (600 PSI)
- Repair pinhole leaks and get refrigeration system running again without having to replace an entire appliance
- No mixing of epoxy compounds, heat activation saves time on the job
- Fast repairs completed in 90 seconds

EPOXY STIK®

Epoxy repair compound for water piping systems

Water system leaks and cracks can be easily sealed with the Epoxy-Stik®. Safe on potable water systems, this epoxy hardens in 5-10 minutes. Simply remove the protective wrapping and mix the two compounds together.

- Withstands temperatures up to 121°C (250°F)
- Hardens in 5-10 minutes and cures fully in 24 hours, so your system will be running again in little time
- Can be applied under water for submerged pipe leaks
- After one hour can be drilled, tapped, filed, sawed, sanded and painted - your job can be easily finished in little time

OYLTITE-STIK®

Epoxy repair compound for low pressure equipment

For fast temporary repair on small engine leaks, use Oyltite-Stik®. It stops oil and gasoline leaks without the need for equipment draining. Use Oyltite-Stik on low-pressure gas tanks, oil tanks, and more.

- Pressure to 1 BAR (15 PSI)
- Stops leaks fast for temporary repair of oil and gasoline leaks
- Apply directly to the fuel tank without draining, less time is spent stopping the leak

PLASTO-JOINT® STIK — Plastic thread sealant in a stick

T-O-T® — Pipe thread compound

PIPETITE® PASTE — Soft set pipe thread compound

PIPETITE® STIK Thread sealant in a stick

FOR SEALING OXYGEN CONDUITS USE OXYTITE PASTE OR SLIC-TITE PTFE TAPE

Ideal for pool and spa installation, the Plasto-Joint® Stik was designed for superior sealing of plastic pipe threads. It easily fits inside a shirt pocket for convenient mobility.

- Pressures: 20 BAR (300 PSI) for gas; 34 BAR (500 PSI) for liquid
- Sealing temperature: up to 121°C (250°F)

This economical pipe thread sealant is great for sealing metal threads on many types of systems with pressures under 34 BAR (500 PSI).

- Pressures: 24 BAR (350 PSI) for gas; 34 BAR (500 PSI) for liquid
- Sealing temperature: up to 177°C (350°F)
- No-drip siliconized formula for fast application on metal threads
- Lead-free, non-toxic, no V.O.C.'s

This economical pipe thread sealant is great for sealing metal threads on many types of systems.

- Pressures: 177 BAR (2,600 PSI) for gas; 340 BAR (5,000 PSI) for liquid
- Sealing temperature: up to 204°C (400°F)
- No V.O.C.'s

PIPETITE® STIK is LA-CO®'s original thread sealant. It was designed for professional pipefitters who needed an efficient way to seal pipe. It easily fits inside a shirt pocket for convenient mobility.

- Pressures: 24 BAR (350 PSI) for gas; 136 BAR (2,000 PSI) for liquid
- Sealing temperature: up to 177°C (350°F)
- Safe, non-toxic, non-drying

OXY-TITE® Pipe thread sealant for oxygen systems

Oxygen piping systems need a specially formulated thread sealant, and OXY-TITE® is the perfect product for these sensitive systems. Each batch of OXY-TITE® is tested to the stringent standard of ASTM G-72.

- PTFE thread sealant specifically formulated for oxygen services
- Pressures: 180 BAR (2,600 PSI) for oxygen gas
- Sealing temperature: -196°C to 232°C (-320°F to 450°F)
- No V.O.C.'s

DETAILS
42805 113 g

LA-CO® LOC® Anaerobic pipe thread sealant

Designed to harden and seal in the absence of oxygen, LA-CO® LOC® Anaerobic Thread Sealant is excellent for heavy vibration areas such as fire sprinkler systems, compressors, and reciprocating equipment.

- Pressures: 204 BAR (3,000 PSI) for gas; 680 BAR (10,000 PSI) for liquid
- Sealing temperature: -54°C to 204°C (-65°F to 400°F)
- Contains PTFE for a positive seal
- Anaerobic adhesive provides locking power
- Contains no solvents that may shrink and weaken seal
- Ideal for threads in heavy vibration areas
- DO NOT USE ON OXYGEN SERVICE; USE OXYTITE PASTE OR SLIC-TITE PTFE TAPE
- Made in USA with globally sourced materials

DETAILS
49050 50ml.
49250 250ml.

LEAK TITE®- BLUE Economical thread sealant with PTFE

This blue sealant is excellent for sealing water, air, steam, natural gas, refrigerants, gasoline and ammonia. LEAK-TITE® Blue is also ideal for use on production lines and fabrication shops.

- Pressures: 102 BAR (1,500 PSI) for gas; 340 BAR (5,000 PSI) for liquid
- Sealing temperature: -46°C to 260°C (-50°F to 500°F)
- Contains PTFE particles for greater sealing power
- Will not harden or dry out over time, remains flexible for easy disassembly
- Safe, non-toxic, contains no solvents
- Washes off hands and clothes easily; less time spent cleaning up
- DO NOT USE ON OXYGEN SERVICE; USE OXYTITE PASTE OR SLIC-TITE PTFE TAPE

DETAILS
46009

OIL MARKER Handy universal lubricant in a marker form

Oil Marker is a all purpose lubricant and cleaner engineered with a convenient marker pen delivery system perfect for small parts. Useful for dissolving rusted screws, protecting electronic contacts, removing adhesives residues...

- Chisel tip marker for exact delivery to the contact avoiding drips and wiping
- Eliminates humidity: on electric or electronic circuits and contacts
- Cleans and leaves protective lubricant in one easy step
- Silicone free, safe on metals and plastics
- Offers protection from oxydation and corrosion while improving contact and conductivity

DETAILS
31100001 Oil Marker
199011 Display with
32 markers

PRECISION SPOUT OILER

General purpose lubricating oil

When equipment is in hard-to-reach places, professionals use the Precision Spout Oiler to get the job done. With a specially designed telescoping spout, LA-CO's Precision Spout Oiler can reach up to 33cm (13") to lubricate motors, bearings, and more.

- Special telescoping spout lubricates hard-to-reach areas up to 13" away
- Premium grade oil is excellent for all general purpose lubricating

DETAILS
79704
(118ml.)

LUBRI-JOINT®

Water dispersible gasket lubricant

FBC™ System Compatible Lubri-Joint® is suitable for all types of pipelines - including PVC and soil pipe. It is ideal for lubricating rubber gaskets and can be applied to wet or dry surfaces.

- FBC™ System Compatible
- Ideal for lubricating rubber gaskets, promoting proper expansion, and ensuring correct fit
- Suitable for all types of pipelines, including PVC and soil pipe, so only one brand of gasket lubricant is needed
- Non-bacterial, non-petroleum, no objectionable odor
- Can be applied to wet or dry surfaces, making preparation easy
- Will not deteriorate natural or synthetic rubber, plastic gasket, or cast iron pipe

DETAILS
78713
(946ml)

VISU-GLOW®

High-visibility leak detector

This leak detector is formulated with a high viscosity so it can be used on vertical surfaces. VISU-GLOW® is designed to detect leaks on CSST systems using its high-visibility fluorescent color, even in dimly lit areas.

- Temperature range: -9°C to 93°C (15°F to 200°F)
- Built-in dauber and high viscosity allow for easy application
- Highly visible fluorescent color shows brightly, even in dimly lit places
- Non-corrosive, non-toxic, safe for oxygen

DETAILS
32898
(240ml.)

SURE-CHEK®

All-temperature leak detector

Specially formulated to work within a broad temperature range, Sure-Chek® leak detector can be used on CSST systems in many climates. It doesn't contain chlorides, so it won't damage metal pipe. Simply spray it on gas line connections and any leaks will be seen with sure-chek's highly visible fluorescent bubbles.

- All-temperature formula: -48°C to 93°C (-55°F to 200°)
- Handy spray bottle allows for easy, targeted application
- Ultra-sensitive long lasting bubbles for easy leak identification
- Non-corrosive, non-toxic, safe for oxygen

DETAILS
32850
(473ml.)

ALL-WEATHER®

The All-Weather® brand of livestock marking and identification products is the world's most trusted brand for herd management on dairy and swine farms. Our All-Weather® livestock marking products have helped support global increases in herd sizes and have provided low-cost, efficient solutions for animal heat detection, vaccination, insemination, and other high-volume herd management needs.

PAINTSTIK® LIVESTOCK MARKER — Real paint in stick form

The All-Weather Paintstik® is the original Livestock Marker created over 69 years ago. The special paint formula in stick form is designed to temporarily mark all types of livestock including dairy and beef cattle, hogs, and sheep. The non-toxic paint is safe for all types of livestock. Available in 10 colors for all your marking needs.

- Real paint for longer lasting identification
- Resists weather and water
- Non-toxic, safe for all livestock
- Wide range of colors to chose from
- Marks on wet or dry animals

HC PAINTSTIK® LIVESTOCK MARKER — Hot climate marking

The All-Weather HC Paintstik® is a Livestock Marker specially formulated to withstand the higher temperatures found in extreme hot climates. The solid paint in stick form will effectively mark livestock in a wide range of temperatures from 4° C to 55° C. The non-toxic paint is safe for use on all types of livestock including dairy and beef cattle, hogs, and sheep. Available in eight colors to meet all your marking needs.

- Special paint formula to withstand hotter summer temperatures
- Real paint for longer lasting identification
- Resists water and weather
- Non-toxic, safe for all livestock
- Marks on wet or dry animals
- Fits the Ultimate holder

TWIST-STIK® LIVESTOCK MARKER — Twist-Stik® convenience

The All-Weather® Twist-Stik® Livestock Marker provides the convenience of a twist-up holder to keep hands and clothing cleaner and allow the entire use of the paint from each marker. The special paint formula is a proven economical way to temporarily identify livestock for sorting, inoculations, breeding and healthcare procedures. The non-toxic paint is water and weather resistant. Available in a wide range of colors for all your marking needs.

- Twist-Stik® holder keeps paint off hands and clothing
- Real paint for longer lasting identification
- Non-toxic, safe for all livestock
- Nine, highly visible colors available for all your identification needs
- Size: 3,17cm to 12cm

QUIK SHOT® SPRAY PAINT INVERTED TIP — Fast, cost-effective livestock marking

DETAILS

61112		Pink Fluo	61191		Red
61114		Orange Fluo	61193		Blue
61116		Green fluo	61195		Black

All-Weather Quik Shot® provides a fast and economical way to mark dairy and beef cattle. The high-visibility colors are long lasting and easily seen on all colors of cows. The special water-based paint formula is quick drying and long lasting. The aerosol spray is equipped with an inverted tip.

- Clean to use with no waste
- Fast drying paint for longer lasting identification on the cows
- Non-toxic, safe for all livestock
- Inverted tip spray can for convenient marking
- V.O.C. compliant
- Large 470 ml can for many marks per can
- Comes in regular and fluorescent colors

MEAT MARKER — For meat processing marking

DETAILS

62102		Purple
-------	--	--------

All-Weather Meat Marker is the only marker registered by NSF for use in USDA inspected meat processing plants in the USA. New, improved marker gives twice the write-out per stick with greater breakage strength. Ideal for marking directly on animal carcasses and other meat parts.

- Designed to write on all types of animal carcasses during meat processing
- Only marker listed by NSF for use in USDA inspected meat processing plants in the USA
- Canadian Food Inspection Agency (CFIA) Compliant
- High-visibility color: purple
- Comes with new plastic sleeve with zipper for easy use
- Water-soluble

PLASTIC TAG MARKER — Permanent ink marker for plastic surfaces

5 MM

DETAILS

96623		Black	
96734		Black (blister)	

A permanent ink marker engineered with a unique formula to etch into plastic surfaces and tags for long-lasting, highly-visible marks. The valve-actuated tip releases the wear-, weather- and UV-resistant ink on demand for smooth, continuous use.

- Unique ink formula etches into polyurethane plastic surfaces and tags for long-lasting, highly-visible marking
- Fade- and weather-resistant ink for extended outdoor exposure
- Heavy-duty aluminum barrel for tough work conditions
- Convenient clip-cap stores marker easily in pockets and eliminates product roll

Like any other tool, markers and temperature indication products are specialized to help professionals do the jobs they need to do. As the industry's leader in these categories, we continuously invests in research and development to meet the requirements of a constantly changing and advancing marketplace. Through careful product evaluation and analysis, our chemists create proprietary formulas, which are designed to meet the needs of our customers.

We are very proud to introduce our 2019 new products improving our range and helping users to do their jobs better, faster, and smarter than ever before.

With over 85 years of marking expertise, the industry's leader is available 24/7 to help. Whether on your phone, tablet, or computer, the new Markal.com is the ultimate resource for product information, pictures, videos, and technical data.

Finding the right marker has never been easier.
Markal.com

OUR MISSION

"We actively listen to our customers, providing them with quality, high-performance products around the world. We are ethically and environmentally responsible and support the growth and well-being of our employees."

LA-CO INDUSTRIES, INC.

LA-CO Industries, Inc. is a family owned global manufacturing company specializing in the manufacturing of industrial hand-held markers, temperature indicators, plumbing chemicals, and livestock identification products.

Since 1934, we have taken pride in the design and manufacturing of high quality, performance-based products for our customers' unique applications. LA-CO Industries continuously invests in research and development to meet the requirements of a constantly changing and advancing marketplace. Through careful product evaluation and analysis, our chemists create proprietary formulas, which are designed to meet the needs of our customers. Our experienced customer service representatives are the heart of LA-CO Industries. Interacting with customers every day, our team expertly provides quote, receives orders, prepares documents, assists in product

selection and answers customers inquiries. Our manufacturing plants and warehouses in the United States and France allow our logistic specialists to efficiently serve customers' across the globe. Our marketing department is committed to supporting our partners around the world. Lending our graphic design and creative expertise, we work with distributors to create unique promotions, sampling tools and cross-selling opportunities that are valuable to everyone, but most importantly the end-user.
